

Want to learn with your colleagues about creative and effective ways to improve patient health through use of research evidence? Join the quarterly meetings of the PHC Knowledge Translation (KT) Community of Practice!

Next round-table meeting: **Dec 6, 2016**
12:00 PM - 1:00 PM – St Paul’s Hospital, Dining Room 3 (near the cafeteria on 4th floor)

At the Sept 6 meeting, our agenda included:

KT Concepts – Iva Cheung, PhD student, provided a presentation and led a discussion on her current work on a framework to help creators of knowledge tools and products— whether they be policy briefs, practice guidelines, infographic decision aids for patients, or training webinars— to ensure that these resources are as ‘accessible’ as possible. For more info, check Iva’s project link: <http://bit.ly/1TShYQo>

"Brag & Steal" –The resources we shared regarding KT groups and resources, are attached to these meeting notes. To join the BC KT Community of Practice click here: <http://bcktcop.ca/>

"Share & Solve" – Jenny Leese, PhD student, presented on the evolution of KT activities across Canada, including findings from a content analysis of “model research projects” profiled in CIHR's KT casebooks from 2006 to 2016. For more info, contact Jenny: jleese@arthritisresearch.ca

If you’d like to share a project to elicit ideas from the group or if you have any questions, please contact us:

Aggie Black, Research Leader, Professional Practice (ablack@providencehealth.bc.ca)

Alison Hoens, Research, Education & Practice Coordinator, Physiotherapy, PHC and Physical Therapy Knowledge Broker, UBC/PHCRI/VCHRI/PABC
(ahoens@providencehealth.bc.ca)

KT Networks, Communities of Practice, Services & Twitter Links to Keep Informed About KT

BC KT Community of Practice: <http://bcktcop.ca/>

"We provide a forum to develop, share, and enrich KT activities; facilitate opportunities for collaborations between members; and foster relationships to augment KT connections. Membership is free. We invite you to learn more about the benefits of membership and [join our community today!](#)"

KT Canada: <http://kclearinghouse.ca/ktcanada>

Knowledge Translation Canada is a network of Canadian experts in knowledge translation joining forces to tackle the greatest challenge in health care today: the fact that although there is a great deal of health research being conducted, there is a gap in applying the results at the patient's bedside and in every day health decisions. funded by the CIHR, serves as a repository of KT resources for individuals who want to learn about the science and practice of KT, and access tools that facilitate their own KT research and practice.

CHNET-Works! animateur@chnet-works.ca

CHNET-Works! is a network of networks linking researchers, decision-makers and practitioners in health and stakeholder sectors from across Canada. CHNET-Works! hosts weekly webinars sharing leading edge research and application, supporting discussions and actions on pressing health issues. Participants join in these free pan-Canadian discussions via telephone and internet - no registration fees, no transportation costs, no greenhouse gasses

Research Impact <http://researchimpact.ca/>

ResearchImpact (RIR) is a pan-Canadian network of 11 universities committed to maximizing the impact of academic research for the social, economic, environmental and health benefits of Canadians. RIR is committed to developing institutional capacities to support knowledge mobilization by developing and sharing knowledge mobilization best practices, services and tools. Founded in 2006 by York University and the University of Victoria, ResearchImpact is a network of 11 universities that have invested in an institutional capacity to support knowledge mobilization among faculty, students and partner organizations. Current members are: Carleton University, Kwantlen Polytechnic University, McMaster University, Memorial University of Newfoundland, University of Guelph, Université de Montréal, Université du Québec à Montréal, University of Saskatchewan, University of Victoria, Wilfrid Laurier University, and York University.

National Implementation Research Network (NIRN) <http://nirn.fpg.unc.edu/> offers free online training modules, lessons, tools and resources aimed at contributing to the best practices and science of implementation, organization change, and system reinvention to improve outcomes across the spectrum of human services.

National Collaborating Centre for Methods and Tools (NCCMT) <http://www.nccmt.ca/> is an online collection of resources related to the methods and tools for knowledge translation in public health.

Centre on Knowledge Translation for Disability and Rehabilitation Research (KTDRR)

<http://ktdrr.org/> offers resources, training, and KT supports such as a bi-monthly newsletter, and annual casebook related to disability and rehabilitation settings.

Health Systems Evidence <https://www.healthsystemsevidence.org/> is a comprehensive, free access point for evidence to support policy-makers, stakeholders, and researchers interested in how to strengthen or reform health systems or in how to get cost-effective programs, services, and drugs to those who need them.

Knowledge Utilization/Utilisation des Connaissances (KUUS) E-watch Newsletter supported by the Quebec Population Health Network and the National Collaborating Centres for Public Health, is a popular information tool on health innovation.

NCI's Implementation Science offers tools, training & education, grantsmanship resources, and publications related to advancing the field of implementation science.

Alberta SPOR SUPPORT Unit <http://www.aihealthsolutions.ca/initiatives-partnerships/spor/>

The Alberta SPOR SUPPORT Unit is dedicated to the integration of research into care, so that the right patient receives the right care at the right time. We foster evidence-informed health care by bringing innovative diagnostic and therapeutic approaches to the point of care, to ensure greater quality, accountability, and accessibility of care.
